• MAJOR SPORTING EVENT SECURITY LEGISLATION GANTT CHART

→ **Aim:** Set out the critical path of activities and key focus areas associated with developing legislation to police and secure major sporting events

→ **Process:** The Gantt Chart is drawing on research, presentations and conclusions drawn from the Sports Legislation Experts Group meetings, and input and recommendations from global experts

→ **Outcome:**

The document is providing:

- ✓ a list of issues to cover (e.g. crowd control, international cooperation, ticketing fraud, etc.)
- ✓ a short description / explanation for each topic,
- ✓ contributions from experts,
- ✓ and the amount of time that should be allowed to complete each activity

→ This document could bring valuable and useful recommendations on legislation requirements as they relate to the delivery of a major sporting event, and contribute, in a complementary way, to the planning of legislative amendments
